	<p>This is the last business book you will ever need. For in these pages, Stanley Bing solves the ultimate problem of your working life: How to manage the boss. This comprehensive course walks budding business bodhisattvas through basic skills needed to provide the simple elephant handling that makes everyday life possible, including but not limited to the primary task of following along after the elephant with a little broom and dustpan. Serious students will then move to intermediate steps, from Polishing the Elephant's Tusks to Hiding from the Elephant When It Has Been Drinking and Feels Quite Nasty.</p> <p>Beyond this level lies the land of the practiced Zen masters, culminating in the ability to leverage and then throw the now-weightless elephant--and even play catch with it at corporate retreats. If <i>What Would Machiavelli Would Do?</i> was the meanest business book since the Renaissance, <i>Throwing the Elephant</i> provides the yang to that yin. Because sometimes you've got to be selfless, compassionate and completely empty to get the job done.</p>
